THE FACE OF SHERIDAN  
DR. TIM DALY

Nothing could keep Dr. Daly  
from doing his job.

Not even Hurricane Irene.

Dr. Tim Daly, Chief of Anesthesia at Rutland Regional Medical Center, had a problem last August. Torrential rains from Hurricane Irene washed away bridges and roads. Getting to the hospital wasn't going to be easy, but not going wasn't an option. Using his Kubota tractor and some muscle, he cut through the debris and headed out to pick up Dr. Shayne, who walked for 40 minutes to reach a clear spot where Dr. Daly could reach him. Sheridan is doctors with a commitment to their patients and communities that is far-reaching and never-ending.

Imagine what a doctor like this would do to help you.

Performance-Driven Physician Services

THE FACE OF SHERIDAN  
DR. PAUL ANDRULONIS

People can't always get  
to the ER.

But that didn't stop  
Dr. Andrulonis from providing  
emergency care.

When people need care, Dr. Paul Andrulonis acts. During Hurricane Katrina, and later after 9/11, he rushed to provide emergency treatment on site where it was needed. If someone is suffering, nothing can stop him. That's why he was named one of Florida's Heroes of Emergency Medicine by the American College of Emergency Physicians. Sheridan is doctors with a commitment to their patients and communities that is far-reaching and never-ending.

Imagine what a doctor like this would do to help you.

**WHEN DID YOU KNOW YOU WERE  
BORN TO BE A DOCTOR?**

Traits that make great doctors like compassion and commitment are usually apparent pretty early. There was probably a moment when you knew that you were going to be a great doctor. We're good at seeing that too. We find great doctors and form lasting relationships with them by supporting their dream.

**Remember why you became a doctor? So do we.**
